SUMMARY

Frontend Developer with 3+ years of experience specializing in React.js, TypeScript, JavaScript, Ionic, and modern UI frameworks. Experienced in building approval-based workflows, role-based authentication, REST and GraphQL API integration, reusable component architecture, responsive interfaces, dashboards, and reporting systems. Strong ability to translate business requirements into scalable, maintainable, and user-friendly frontend solutions.

EXPERIENCE

Software Developer (Frontend) Nov 2022 - Present
Kruu EduTech Pvt. Ltd., *Chennai, India*

- **Developed a complete HRMS platform** from scratch with separate Employee and HR Admin portals, covering onboarding, attendance, leave, WFH, travel/claims, payslips, compensation & appraisal, profile, exit management, meetings, and task/issue tracking.
- Implemented **role-based access control, protected routes, and authentication workflows** using AWS Cognito, including domain-specific login and multi-level approval flows for employees, managers, HR, and admins.
- Built **HR Admin Portal** with employee master data (CRUD), centralized approval management, bulk upload, compensation configuration, and exportable attendance/claims/appraisal reports.
- Developed reusable **React and Ionic components** — forms, searchable dropdowns, tables, filters, modals, dashboards, and report views — used across multiple product modules.
- Integrated **RESTful APIs and GraphQL** services, handling loading/error/empty states and asynchronous data flows; debugged API, CORS, auth, routing, and responsive layout issues in production.
- Contributed to the **Kruu project-based learning platform** (100,000+ students), building responsive UI for student progress and project workflows using React, TypeScript, and Ionic.
- Built the end-to-end digital platform for the **Rotary Centenary Scholars Programme** (CSR education initiative, 7 districts of Tamil Nadu, up to 30,000 students) — baseline assessment digitization, group/role assignment, 3-stage submission workflow, mentor/student attendance, bulk onboarding, and reporting dashboards with PDF/Excel export.
- Collaborated with backend developers, QA, and product teams using **Git and Agile/Scrum** practices to deliver features, resolve defects, and support production releases.

UI/UX Designer Jan 2022 - Jun 2022
Leadtech Solutions Pvt. Ltd. *Chennai, India*

- Designed user-centric interfaces and created wireframes, prototypes, and visual designs to improve usability and engagement for web applications.

SKILLS

- **Frontend**: React.js, TypeScript, JavaScript (ES6+), React Hooks, React Native, HTML5, CSS3
- **UI Frameworks**: Bootstrap, Tailwind CSS, Ionic Framework, React-Bootstrap, CSS Modules
- **Authentication**: AWS Cognito, Role-Based Access Control, Protected Routes, Domain-Based Login
- **API Integration**: RESTful APIs, GraphQL, Axios, Async Data Handling, API Error Handling
- **Other**: State Management, Reusable Components, Form Validation, Responsive Design, Workflow Automation

- **Tools**: Git, GitLab, Agile/Scrum, Code Reviews, Debugging

EDUCATION

Master of Computer Application (MCA) 2021 - 2023
Madras University *Chennai, India*

Bachelor of Computer Application (BCA) 2018 - 2021
Dhanalakshmi Srinivasan College of Arts and Science Aggregate: 83%
